

Coiled Tubing Operator

NEW 1 DAY COURSE

The Real-World Well Control Training You Need

Well Control School is proud to introduce the brand-new, IADC WellSharp® Coiled Tubing Operator course, designed to provide essential well control knowledge and skills specific to coiled tubing operations.

Why This Course?

- **Focused Learning** – Gain practical skills and knowledge with this one-day, intensive training.
- **Experienced Instructors** – Learn from industry veterans with extensive training expertise.
- **Hands-On Training** – Engage in realistic, scenario-based exercises.
- **Enhanced Safety** – Improve your ability to recognize and respond to well control threats during coiled tubing operations.
- **Industry-Standard Certification** – Earn an IADC WellSharp® certification, demonstrating your commitment to safety and operational excellence.

During this course, students will

- Learn to identify potential well control problems and implement systematic risk management procedures.
- Understand the importance of barriers in well control, including types, testing, and management.
- Gain a comprehensive understanding of the equipment used in well control operations, from the surface to the subsurface.
- Understand the process of rigging up the coiled tubing unit and connecting it to the well.
- Learn about the different barriers used in pressure control equipment and their functions.
- Gain insights into operational limitations, pressures, forces, and other factors that can affect well control.
- Learn about the different pressure control techniques used in live and dead well interventions.
- Be prepared for complications that may arise during well control operations.
- Learn about common coiled tubing complications and how to troubleshoot them effectively

Who Should Attend?

- Any coiled tubing equipment operator.

Course Length

- One (1) day of intensive training

Certification

Upon successful completion of the course, students will earn an IADC WellSharp® Coiled-Tubing Service Equipment Operator certification.
