

# Workover Operator

...  **NEW 1 DAY COURSE**

## The Real-World Well Control Training You Need

Well Control School introduces the brand-new, IADC WellSharp® Workover Well Control course, designed to provide essential well control knowledge and skills specific to workover operations.

### Why This Course?

- **Focused Learning** – Gain practical skills and knowledge with this one-day, intensive training.
- **Experienced Instructors** – Learn from industry veterans with extensive training expertise.
- **Hands-On Training** – Engage in realistic, scenario-based exercises.
- **Enhanced Safety** – Improve your ability to recognize and respond to well control threats during workover operations.
- **Industry-Standard Certification** – Earn an IADC WellSharp® certification, demonstrating your commitment to safety and operational excellence.
